Additional Optimizations

Featured Snippet

☐ Page elements are formatted to match the current ranking snippet
☐ For Paragraph Snippet: 45-50 word answer directly below the optimized H2 for the primary keyword. Includes similar words and phrases highlighted in the current ranking snippet
☐ For List Snippet: 5-10 (or more) H3s below the optimized H2 for the primary keyword. If current ranking snippet includes an ordered list, then start H3s with a number followed by a period.
☐ For Table Snippet: 3-column table with similar headings and number of rows as the current ranking snippet and placed directly below the optimized H2 for the primary keyword

Content Quality

☐ Original content (not copied or spun)
☐ Organized with proper heading structure (H1 to H6)
☐ Stays focused on the primary keyword topic
☐ Formatted similarly to the top-ranking URLs for the primary keyword
☐ Satisfies user search intent for the primary keyword

Technical

☐ Mobile-friendly
☐ Passes Google’s Core Web Vitals for mobile and desktop devices
☐ Page not set to noindex

E-E-A-T

☐ Includes a byline with a link to the author’s bio page
☐ Includes an author bio box (optional)
☐ Includes the published date and time (the time is optional for evergreen content but essential for news-related content)
☐ Demonstrates expert knowledge and/or first-hand experience on the subject
☐ Includes semantically-related words for the primary keyword topic
☐ All information is accurate and up to date
☐ Includes 1-2 unique elements (minimum) not found in the top-ranking URLs (e.g., tables, charts, infographics, videos, more list items, expert quotes, FAQs, etc.)

Links

☐ Includes 1-3 external links to high-quality sites to add proof for claims, facts, statistics, etc.
☐ Includes 3-5 outbound internal links to other relevant pages on the site with keyword-optimized anchor text
☐ Includes 5-10 (minimum) inbound internal links pointing to this page with keyword-optimized anchor text
☐ Nofollow or Sponsored attribute added to external affiliate and promotional links

Schema Markup

☐ Relevant schema markup added to the HTML (if applicable)
